

INSTANT TEAM SESSIONS

Version Release Notes

New in Instant Team Sessions V3.1

1. Web client now supports Ubuntu (version 8 and 9) and CentOS.
2. The Team Sessions system can now synchronize Team Sessions archives and content with external Lotus Notes discussion databases. This is the first time that Sametime Persistent Chat Rooms have been integrated with Notes discussion databases.
3. Enhanced support for embedding Instant Team Sessions persistent chat rooms within the Notes 8.5 client.

Continue to page two for V3.0 Release Notes.
